Click here to learn about what's new in NetMeeting 2.0 Beta 2!

### NetMeeting 2.0 Beta 2 Now Available!
Select which version of Microsoft NetMeeting you would like to download:

**Note:** If you currently have NetMeeting 1.0 installed, NetMeeting 2.0 Beta 2 will replace version 1.0 but will not cause a loss of any 1.0 functionality.

**NetMeeting 2.0 Beta 2 for Windows 95**

Next

### Download instructions:
1. Select which version of NetMeeting you want from the list above and click Next.
2. Then pick the language version you want and click Next.
3. Choose any of the links on the resulting page to start your download.
4. If you're using a previous version of Microsoft NetMeeting, click Open File to automatically upgrade your existing version.

Welcome!
Thank you for downloading Microsoft NetMeeting. For additional information, please visit the NetMeeting home page or get Online support options directly from our Support Center.

Click here to find out what's new in NetMeeting 2.0 Beta 2!

If you've already installed NetMeeting, look here to find people to talk to and User Location Servers.

Some Internet Explorer add-on tools give users the ability to post messages and other content on the Internet and other networks.

Julian Bunn  u there ?
Tony Cass  yes
Tim Smith: Julian, you seem to have joined but with no video or voice.

Julian Bunn: stranger than fiction

Tim Smith: i have no video from either of "you"

Julian Bunn: Well, at least it is symmetric!

Tim Smith: do you see other video (not me)?

Julian Bunn: Yes, we have video between our two

Tim Smith: Have you seen the "Intel Connection Advisor" Icon in the task bar by the clock?

Julian Bunn: no ... I don't have that running
Desktop Videoconferencing Products

This is an index of desktop videoconferencing products surveyed. This list is designed to aid in comparing the many different systems based on several key features. These systems may have additional features that are not mentioned here.

NEW You can now add or update the information on your company's desktop videoconferencing product on-line with our new product survey update form!

<Jeff>: ooooh... watch out... I'm onna toll... lol
<Julian>: same with you tzz
<Joe@Tel-Aviv>: your video is 50/50
<Pica>: aw molloy sten is in the shower full bleded frenchman!
<ctzz>: hahaha... boom. I got all the stuff...
<Boomer>: k
<Boomer>: can you follow it?
<Pica>: well wot adjustaments do i need? or do i need bombastic?
<Holyday>: well Pica... in fact my parent are Greek ;)
<Joe@Tel-Aviv>: boomer, took me 30 minutes to download ike's mistake
<Boomer>: Pica - do not adjust. You are lovely
<ctzz>: BTW... Pica... any of your vid is good...
<Holyday>: shahshah
<Holyday>: (sorry Joe)
<Julian>: if three grey bands is lovely ?
We hope you are enjoying the FreeVue Communications Network!

A few quick tips:

Press the microphone button once to start talking, and again to stop.

Your handle (on the settings screen) is the name other users must type to call you. You only need to enter a password if you have registered yourself on the FreeVue website and received one.

Quickcam Users - remember to set your camera to 64 shades of gray. You can do this in the video format screen (click on Video on the menu).

If you are having problems, use the feedback button or e-mail us at feedback@freevue.com.

If the system is slow in placing your calls, please be patient! We are upgrading hardware to deal with the large number of new users.
